

**MR. PRESIDENT OF THE SUPERIOR COURT OF JUSTICE OF NUEVA LOJA**

As part of trial No. 002 -2003, by virtue of the decision dated October 14, 2005 at 16.00, by which Edison Camino's expert's appointment expiration is declared; and that of November 7, 2005 at 17.00, by which Dr. Villacreces is appointed as Expert, as well as in the need to comply with the EXPERT Certificate of Possession dated Friday, November 25, 2005, needed to prepare and present the Expert's Report of the Inspection conducted to WELL SACHA 13 on November 10, 2004, within the corresponding time limits, herewith you will find an Attachment which contains my Expert's Report, included in 75 pages, plus the corresponding annexes.

I should state that:

- I have not been initially appointed as Expert of the above mentioned site; therefore, the present report is based on information and data provided by the Amazon Defense Front as well as in other consulted documents. Plaintiffs proceeded this way due to the fact the Expert originally appointed by the Superior Court of Nueva Loja, Eng. Edison Camino, failed to deliver the report and therefore was cancelled.
- The present report DOES NOT contain neither the chain of custody, nor the original report issued by the laboratory, which according to plaintiffs, was delivered to Expert Camino, but not to me.
- This report contains an appraisal of the results of the test drillings and physiochemical analysis of the samples taken by the experts who worked on the inspection conducted on November 11, 2004. Numeric values of such results were delivered to me by plaintiffs in the manner of Charts.
- I separate myself from the responsibility which may bring the use of this information I was provided with, and which I used to prepare this report, especially the laboratory results, field test drilling, and interviews with residents in the Sacha-13 site, as well as any other information which may be claimed as intellectual property.
